DECOMPRESSION CENTER, P.C.

“The higher your energy level the more efficient your body. The more efficient your body, the better you feel and the more you will use your talent to produce outstanding results.”

Dear Neighboring Business Associate,

Tired? Exhausted? Difficulty just making it through the work day? This may or may not describe you, but more than likely it describes a good number of your company's employees. Research on fatigue in the work place is nothing short of astounding in its findings.

**A full 95% of Americans in today's workplace admit
To being fatigued at some part of their work day.**

As you can imagine, or may know first-hand, productivity during the fatigued times is less than optimal. With the shift towards wellness in America today being at its peak, the fatigue factor seems like a paradox. Although there are many canned programs for overcoming fatigue, what is certain, is that fatigue is a complex condition.

Over the course of the last 20 years, energy and productivity classes, otherwise known as “Peak Energy Workshops” have been given to over 1,000 groups including the FBI, CIA, Federal Judges, Wal-Marts, and K-Marts.

The results have been simply outstanding. In fact, the Peak Energy Solution is proven to increase energy levels more than 30% in only 14 days. And over the course of the first eight weeks, you will notice a remarkable improvement in your employees' natural energy levels.

My purpose in writing you is to let you know that we are in the process of scheduling our lectures for the upcoming spring calendar. If you would like to know more about the program, please feel free to call our office, and one of my Peak Energy Team Members will walk you through the process. It's actually quite simple!

Here is all you need to do to schedule the Peak Energy Solution for your company or group:

1. Take a look at your calendar and have two or three options for scheduling the Peak Energy Lecture.
2. Call our office and we will be happy to arrange a date that works best with your company.
3. Let us know the number of employees or people in your group so that we may send the appropriate number of team members and information packets.

That's it. There is no cost to your company or your group. It is our honor and privilege to work with your team.

Yours For Your Best Year Ever,

Aaron Williams
